## HOW IS GRADING DIFFERENT FROM EVALUATION ?

In Detailed evaluation the evaluator writes both micro and macro comments in an elaborate manner. However in a graded paper the evaluator will grade each of your answers in A/B/C for Content/ structure and presentation of the answer. Graded evaluation helps us bring down the cost of evaluation in the mains booster program making it relatively easier on the pocket.

## WHAT ARE CSE 2022 MAINS EMULATORS ?

CSE Mains Emulator tests are repetition of UPSC CSE 2022 papers in an exam format. This gives an opportunity to students who were unable to write this year's mains to write these papers and assess their performance through our grading process.

## HOW WILL THIS HELP ME IN MY PRELIMS PREPARATION?

We have consciously designed the schedule of the Mains Booster Plan to ensure that you cover subjects like Ethics(GS 4) in the beginning followed by GS 3, GS 2 and then GS 1. This was done taking into account the weightage in prelims oriented topics in each of these papers. This will ensure that the closer you are to the preliminary examination, you will be concentrating on topics that will help you score better in the preliminary. This will help you easily transition from Mains to prelims oriented preparation seamlessly.
